

## **Dj Zeb**

Started playing music as early as 1988 and quickly became known as a Underground DJ.

**With Influences from 2 continents** as Zeb is Swedish & Mexican and grew up both in Sweden & in Mexico where he picked up influences from both sides of the globe. Partly from playing at clubs and festivals but also when he participated in a lot of them.

**Zeb comes from a music family** and it did not take long before Zeb started producing his own music in the mid 90's.

**With the heart in electronic music**, there were a lot of remixes and productions but also a couple of white label releases.

**Over the years**, Zeb has worked with a number of artists and projects and in recent years a lot of ghost production.

**As an event organizer** since the mid-90s with a few hundred events behind him, Zeb also started the Label: Technohearts Records, (Technohearts AB) with a focus on Techno.
